

Chemical Industry Notes (CIN)

FILE DESCRIPTION

Chemical Industry Notes (CIN) indexes over 80 important worldwide business-oriented journals, newspapers, and related periodicals that reflect recent events in the chemical industry. Principal coverage of CIN includes: government and society; market data; resources and resource use; people information; products and processes, organizations and institutions; and unit cost and price information.

SUBJECT COVERAGE

The principal subjects covered in Chemical Industry Notes are:

- Government and Society--including legislation introduction and status of bills and statutes, tariffs, quotas, or taxes affecting foreign governments, and more
- Market Data--including production numbers/statistics, import/export data, and more
- Resources and Resource Use--including mining and refining, plants/smelters/facilities, capacities, and more
- People Information--including management changes, and hiring and layoff news, and more
- Products and Processes--including patent assignments and product development news
- Organizations and Institutions--including mergers and joint ventures, acquisitions, restructuring, and more
- Unit Cost and Price Information--including tonnage, margins, and pricing fluctuations and changes

SOURCES

CIN regularly monitors over 80 important worldwide trade journals, newspapers, and related periodicals.

TIPS

SEARCH FILE 19

to find current information on the chemical industry.

EXPAND JN=

to see the list of abbreviated titles of journals indexed in the database.

USE CO=

ABSTRACT:
/AB Major Chinese petrochemical companies are expected to report strong earnings for 2004 owing to strong product prices, analysts said. Yizheng Chemical Fibre recorded a net profit of Rmb 291.9m (US \$35.3m) in the first three quarters of 2004, compared with Rmb 137.9m during the same period of 2003. Yangzi Petrochemical Co. projected that its net profit in 2004 would be 150-200% higher than in the previous year. The company's 600,000 tonne/year cracker operator made a net profit of Rmb 1.66bn in 2003. Shanghai Petrochemical Co. is also expected to enjoy at least a 100% jump in its 2004 net profit compared with the previous year. The 850,000 tonne/year cracker operator made a net profit of Rmb 1.39bn in 2003.
