

TRADEMARKSCAN® - United Kingdom**FILE DESCRIPTION**

The **TRADEMARKSCAN® - United Kingdom (File 126)** database is produced by Thomson CompuMark. The database principally serves as a preliminary trademark screening tool for checking on the availability of new product and service names.

Like other TRADEMARKSCAN files, TRADEMARKSCAN - United Kingdom should not be used as the sole basis for clearing a new name or for filing a trademark application. If a trademark is not found in the databases, it does not necessarily mean that the trademark is available for use. Registration does, however, confer the exclusive right to the use of a trademark and offers a greater degree of protection from infringement.

TRADEMARKSCAN - United Kingdom features full records that contain the trademark, application and registration numbers, international and national class(es), status, goods/services, current owner, dates, and other pertinent information. Trademarks can be searched as phrases (ET=), as whole words or word beginnings in the Basic Index, or as word fragments or word endings in the rotated index (TR=). Trademark design/logo images can be located by restricting a search with RT=IMAGE. Color images are provided when available. Other information about the mark such as e.g., Design Type (DT=), Lining/Color Claims (PH=), Design Phrase (PH=), Notes (NT=), and Design Codes (VC=) are also included.

TRADEMARKSCAN - United Kingdom can be searched individually or in conjunction with other trademark file(s). Search and display fields have been standardized as much as possible for use in cross-file searching. The OneSearch category, TMKS, covers all trademark databases. The EUROTMS category covers the International Register, Community Trademarks, and the European, Scandinavian, and Central European trademark databases.

SOURCES

TRADEMARKSCAN® - United Kingdom (File 126) contains information about trademark applications and registrations published since 1876 in the Trade Mark Journal of the Trade Marks Branch of The Patent Office of the United Kingdom. Active records include published and unpublished pending applications and published registrations still in force. Inactive published and unpublished trademarks from the last 5 years are also included.

TIPS**BEGIN 126**

to screen potential trademark, product or service names filed in the United Kingdom.

BEGIN EUROTMS

to screen potential trademark, product or service names filed across all European trademark files

USE TR=

to search word fragments; add @ to search word endings
SELECT TR=MAIL? OR TR=KEY@?

USE RT=IMAGE and FORMAT 19

to find and display trademark records and their images
SELECT word AND RT=IMAGE; TYPE S1/19/ALL

USE RANK

to see which owners have the most registrations in a particular area.
SELECT IC=<code>; RANK OW

USE REPORT

in a single-file search to organize search results into tabular output
REPORT S1/TX,ON/ALL

DIALOG FILE DATA

Inclusive Dates: 1876 to the present
Update Frequency: Weekly
File Size: Over 673,000 records as of December 2008

 Unpublished Applications made available by the PTO as of December 7, 2008

SEARCH OPTIONS

BASIC INDEX

| SEARCH SUFFIX | DISPLAY CODE | REPORT (FIELD LENGTH) | FIELD NAME | INDEXING | SELECT EXAMPLES |
|---------------|--------------|-----------------------|--|----------|--|
| — | TX | — | Trademark Text & Enhancements ^{1,2} | Word | Whole Word: S KEY Start of Word: S KEY? |

¹ Use the Basic Index to search complete words, compound words, or word beginnings, e.g., S KEY?. Use the rotated index TR= to search word fragments, or word endings, e.g., TR=MAIL?. Since punctuation is stripped for trademark searching, use the AND operator instead of the (W) operator for the most comprehensive retrieval. Search compound words as the whole word and as its parts, e.g., S KEYMAIL? OR (KEY AND MAIL?).

² Since trademarks are not cross-referenced, for the most comprehensive retrieval, alternative spellings should be SELECTed either in the Basic Index, e.g., SELECT HARBOR OR HARBOUR OR HAVRE or in the Rotated Trademark index, e.g., SELECT TR=(HARBOR? OR HARBOUR? OR HAVRE?).

ADDITIONAL INDEXES

| SEARCH PREFIX | DISPLAY CODE | REPORT (FIELD LENGTH) | FIELD NAME | INDEXING | SELECT EXAMPLES |

| YX= | YX | YX (11) | Year Will Expire ⁴ | Phrase | S YX=2013 |

³ Named Company [CO=] includes Owner (ON= and OW=), Agent/Correspondent (LR=), and Registered User (RU=) (when present).

⁴ In a REPORT which includes date fields, NA will appear when the requested date information is not available. Trademark and owner names longer than 32 characters are truncated in REPORT displays.

⁵ Historical Information is not searchable but does include additional information regarding status changes pertaining to the trademark

⁶ The Notes field [NT=] contains miscellaneous action information pertaining to the trademark such as disclaimers, series marks, consent notices, etc.

⁷ Records containing trademark images can be located by including RT=IMAGE in the search. Images display in Formats 15 and 19 when searches are conducted using DialogLink 5, Dialog Classic on the Web, or DialogWeb. Depending on the trademark, images may be in color or black and white.

⁸ National Class (NC=) pertains to the pre-1938 UK Classification. Older records are assigned international and national classes.

⁹ When searching word fragments in the Rotated Trademark index (TR=), use the @ character to indicate the end of a word, e.g., TR=MAIL@. To retrieve an embedded fragment, use the question mark, e.g., S TR=AIL?. Multiple TR= fragments can be combined with AND for the most comprehensive retrieval.

¹⁰ If unsure whether a number is a registration number (RN=) or an application number (SN=), search both fields, e.g., S RN,SN=123456.

¹¹ Registered User (RU=) includes information about organizations that have a licensing agreement with the trademark owner. The type of license, licensee name, number and goods can be searched, if available.

¹² Does not display in record.

SPECIAL FEATURES

For command descriptions, enter HELP LIMIT, HELP SORT, HELP RANK online.

| | | |
|--------------|--|--|
| LIMIT | /ACTIVE -- Active Applications and Registrations /DESIGN -- Design Type /INACTIVE -- Abandoned, Cancelled, and Expired Records /NODESIGN -- Word Only | S S1/ACTIVE S S5/DESIGN S S3/INACTIVE S S7/NODESIGN |
| SORT | CO, DA, DC, DF, DP, DR, DW, DX, ON, OW, RN, SN, TX | SORT S1/ALL/TX PRINT S5/5/1-24/ON |
| RANK | All phrase- and numeric-indexed fields in the Additional Indexes can be ranked. | RANK ON |

PREDEFINED FORMAT OPTIONS

| NO. | DIALOGWEB FORMAT | RECORD CONTENT |
|-----|------------------|--|
| 1 | -- | DIALOG Accession Number |
| 2 | -- | Full Record |
| 3 | Medium | Trademark, Design Type, International Class(es), Status, Serial (Application) Number, Registration Number, Date Registered, and Date Published |
