

Gale Group Trade & Industry Database™

FILE DESCRIPTION

Gale Group Trade & Industry Database™ is a multi-industry database covering international company, industry, product, and market information, with strong coverage of such areas as management techniques, financial earnings, economic climate, product evaluations, and executive changes. Unique industry subfiles allow users to narrow or broaden their searches to one or more groups of industry specific publications. Gale Group Trade & Industry Database complements Gale Group PROMT® (File 16) by providing in-depth coverage of over 65 major industries, including full-text coverage of management, economic, and other professional journals. Abstracts are available for some records and the complete text is fully searchable for many records from 1983 to the present.

SUBJECT COVERAGE

Gale Group Trade & Industry Database provides strong international coverage of over 65 major industries, including automotive, defense, chemicals, electronics, advertising, and marketing, retailing, telecommunications, insurance, metals, and oils. In addition to covering information on companies, industries, products, and markets, Gale Group Trade & Industry Database features excellent coverage of:

- Management theory and practice
- Company stock performance
- Professional business activities
- Industry Overviews
- Reviews
- Economic and demographic information
- Financial exchange information
- Biographies
- Company securities transactions
- Product evaluations

/AB, /XT ABSTRACT: American Banks that have operations in Europe are focusing on specific areas that they are competitive in. In 1982 as many as 77 American banks were operating in London, England. That number had dwindled to 25 by the end of 1993. Besides the banking operations in London, many American banks had offices in other cities throughout Europe. Those banks that have survived have reduced the size of their staff and closed commercial banking offices. Citicorp, which has the most European branches, even more than it does in the US, continues to expand, but has s gone through a major reorganization effort.

/LP, /XT, /TX TEXT:
 After beating a wholesale retreat from Europe in the "1980s, U.S. banks are back in the market. Only this time, they are taking a far more focused -- and profitable -- approach to doing business. "All major American banks have gone through the same analysis," remarks Herbert E. Aspbury, general manager in charge of European operations at Chemical Banking Corp. in London. "Most have left the scene completely, and the handful that are left are taking a very targeted approach. All major American banks have gone through the same analysis, remarks Herbert E.
