

Gale Group Health & Wellness DatabaseSM

FILE DESCRIPTION

The **Gale Group Health & Wellness DatabaseSM** is a comprehensive periodical and reference database produced by The Gale Group, providing broad coverage in the areas of health, medicine, fitness, and nutrition. Gale Group Health & Wellness Database is designed to address the needs of health and medical professionals, specialized business and industry researchers, consumers, and a wide range of people seeking a general understanding about important health issues and practices.

Gale Group Health & Wellness Database covers a diverse range of sources, including consumer health magazines, professional medical journals, consumer health pamphlets, medical reference books, topical overviews of diseases and medical conditions, and important referral information. Also included are health-related articles from more than 4,000 other business and general interest publications indexed by The Gale Group in such databases as Trade & Industry DatabaseTM (File 148), Magazine DatabaseTM (File 47), and others.

Full text is provided for 70% of the consumer and professional journals; pamphlets, overviews, and other reference material are 100% full text. Four kinds of abstracts are available in Health & Wellness Database: author abstracts, provided for articles from professional journals; "consumer summaries," provided for many of the technically-oriented articles, written expressly for the layperson or non-medical professional; and brief summaries and abstracts derived from other Gale Group databases.

Gale Group Health & Wellness Database includes 170 consumer and professional publications. Also included are 550 consumer health pamphlets published by leading foundations, associations, and government agencies.

Key reference sources also are featured, including five medical reference books (Columbia University College of Physicians and Surgeons Complete Home Medical Guide, Mosby's Medical Dictionary, The People's Book of Medical Tests, Oryx Press Consumer Health Information Source Book, and the USP DI-VII Advice for the Patient: Drug Information in Lay Language); topical overviews of more than 1,800 descriptions of diseases and medical conditions published by Clinical Reference Systems (CRS); and contact information for support groups, hotlines, and research centers from The Complete Directory for People With Chronic Illness.

Abstract

WD= WORD COUNT: 5038 LINE COUNT: 00404
/AB, /XT ABSTRACT: The aging of the baby boom generation is expected to have a substantial impact on the profile of the country's elderly population. For nutrition professionals, this development can have important implications. It is important to plan for the future in order to be better prepared to cope with these changes. Planning should take into account the professional environment, available resources, changing demographics and the political realities of the 21st century.

/LP, /XT, /TX TEXT:
In the summer of 1994, Jesse Brown, Secretary of the Department of Veterans Affairs (VA), sent a message to all VA employees about health-care reform that is relevant in a broader context. Brown said stop worrying about the future; instead, put your energies into preparing for it. This is certainly an interesting and challenging thought, especially at this time in history.

.

.

.

To give you a final thought on how dietitians are seen, I would like to quote one of my favorite works on aging, You're Only Old Once! (9), by the famous philosopher Dr Seuss: Dietician Von Eiffel controls the Wuff-Whiffer, our Diet-Devising Computerized Sniffer, on which you just simply lie down in repose and sniff at good food as it goes past your nose. From caviar souffle to caribou roast, from pemmican patties to terrapin toast, he'll find out by Sniff-Scan the foods you like most. And when that guy finds out what you like, you can bet it won't be on your diet. From here on, forget it!

Gale Group Legal Resource Index™

FILE DESCRIPTION

Gale Group Legal Resource Index™ (LRI) is the most comprehensive index available to the legal literature of the English-speaking world. It provides subject, author, case name, and statute name access to over 700 journals from the major nations of the common-law tradition. All material of permanent reference value from each journal is indexed. Special article types covered include case notes, book reviews, columns, letters, obituaries, and editorials. Non-analytical reports and digests of cases, minor personnel notes, association announcements, and news items of no value to the legal researcher are excluded.

Gale Group Legal Resource Index, produced by the Gale Group, provides access to valuable information for both the legal professional and for all researchers who wish to investigate the legal aspects of any topic. For legal professionals, LRI provides access to information on developing legal trends, extensive background information necessary to gain familiarity with unfamiliar areas of law, and historical analyses of cases. For the business or general researcher, LRI provides access to articles that analyze the legal aspects of mergers and acquisitions, taxation, environmental hazards, and issues such as legal ethics and criminal justice. Daily updates of LRI are searchable in Gale Group NEWSEARCH™, File 211.
