

DIALOG Defense Newsletters

FILE DESCRIPTION

DIALOG Defense Newsletters database is a collection of full-text newsletters from primary publishers in the field of defense. The database contains specialized industry newsletters that provide concise information on companies, products, markets, and technologies. Also covered are rulings, regulations, and other legislative activities that affect the defense industry. Initially, newsletters are provided by two publishers: Access Intelligence, LLC and Forecast International. Newsletters appearing in the file include:

Current titles from Forecast International:

- Power Letter, 1989-1997
- World Aerospace Weekly, 1989-2001
- World Weapons Review, 1989-1993

Current titles from Access Intelligence, LLC:

- Air Safety Week, 1996-current
- Aircraft Value News, 1996-current
- C4I News, 1996-current
- Defense Daily, 1996-current
- Defense Daily International, 2000-current
- Helicopter News, 1996-current
- Satellite News, 1996-current
- Terror Response Technology Report, 2005-current
- Via Satellite, 9/2002-current

Archived titles from Access Intelligence, LLC:

- Air Cargo Report, 1996-1998
- Airline Business Report, 2005
- Airline Financial News, 1996-2/2004
- Airline Marketing News, 1996
- Asian Aviation News, 1996
- Commuter/Regional Airline News, 1996-1/2005
- Commuter/Regional Airline News International, 1996-1998
- CNS Outlook, 1996-6/1997
- Global Positioning & Navigation News, 1996-2000
- Mobile Satellite News, 1996-2000
- Satellite Today, 1998-2000
- Space Business News, 1996-2000
- World Airline News, 1996-2001
- World Airport Week, 1996-1998, 2000-10/2001

SUBJECT COVERAGE

Topics covered are any that relate to the defense industry, including:

- Activities in other countries
- Armed Forces
- Joint Ventures
- Mergers & Acquisitions
- Military Contracts
- Negotiations
- Ordnance
- Power and Energy
- Production
- Satellites
- Supply
- Technology
- Transportation
- Weaponry

TIPS

USE FILE 264

to find recent articles focused on defense.

USE /CO OR CO=

to find articles focussing on a particular company.

EXPAND JN=

to get a list of publications included in the database.

TEXT:
 Northrop Grumman [NOC] recently said its RQ-4A Global Hawk became the first unmanned aerial vehicle (UAV) to achieve a military airworthiness certification on Jan. 25 by the Air Force, facilitating routine operations within the national airspace system (NAS).

"Global Hawk was also the first UAV to receive a National Certificate of Authorization (CoA) from the Federal Aviation Administration," George Guerra, Northrop Grumman's Global Hawk program director, said in a statement. "Global Hawk continues to be a trailblazer in leading the way for UAV certifications."

/TX This airworthiness certification covers all five production RQ-4A Global Hawk vehicles delivered to the Air Force. In granting the certificate, the Air Force determined that the Global Hawk system has a proven track record of safe and reliable operations.

According to the company, the military certification outweighs civilian experimental airworthiness certifications that have been granted to other UAVs. The process is very rigorous, taking three years and 77,000 man-hours to achieve, and it will be maintained through the life of the aircraft, similar to that for all manned aircraft.

"This is a historic event," Randy Brown, Global Hawk Systems Group director with the Air Force's Aeronautical Systems Center at Wright-Patterson AFB, Ohio, said. "The aircraft was evaluated against over 500 technical criteria in order to get this certification."

To receive the CoA, Northrop Grumman said it worked closely with the Federal Aviation Administration to define airspace requirements for UAVs.

The airworthiness certification process for the new RQ-4B Global Hawk has begun and should be completed by late 2007.

The larger RQ-4B Global Hawk will carry fifty percent more payload than the current RQ-4A. First flight for the RQ-4B is planned later this year. During three wartime deployments, Global Hawk has logged more than 250 missions and 5,000 combat flight hours.
