

## Columbus (Georgia) Ledger-Enquirer

### FILE DESCRIPTION

The *Columbus (Georgia) Ledger-Enquirer*, provides the inside story on companies located in east central Alabama and west Georgia, including Aflac and American Family Life for life and health insurance, as well as Coca Cola, Home Depot, Georgia Pacific, and Delta Airlines, among others. The paper includes regular sections on home, family, environment, community, political, and local business issues. It is published daily.

### SUBJECT COVERAGE

- Arts & Entertainment
- Business
- Columns
- Editorials
- Features
- Full Text News Stories
- Leisure
- Letters to the Editor
- Sports
- Wire Stories

### TIPS

#### USE PAPERS or PAPERSNU FILES

to find the complete text of local, national, and international news articles from more than 100 U.S. newspapers.

#### USE PAPERSUS IN DIALINDEX

to scan the entire collection of U.S. fulltext newspaper databases.

TEXT:  
CAPE CANAVERAL, FLA. - NASA's Mars Global Surveyor sped toward the Red Planet on Thursday, the first spacecraft in a series of orbiters, rovers and robots that could answer the question: Was there ever life on Mars?

A Delta rocket carrying the unmanned Global Surveyor lifted off on time at noon one day after high wind scuttled the first launch attempt and propelled the boxy, 10-foot spacecraft toward Mars at 24,000 mph.

"We're on our way!" NASA space science chief Wesley Huntress Jr. said. "These are the kind of days you kind of live for in space science and space exploration."  
The spacecraft will reach Mars after a journey of 10 months and 435 million miles.

Once in the desired 235-mile-high orbit, in March 1998, the Global Surveyor will begin mapping the Martian atmosphere and virtually the entire surface of the planet. The survey will last 687 days, or a full Martian year.

It will send images and other data back to Earth within 20 to 40 minutes. The images will be posted on the Internet for public viewing within a day or two after that.

One of the main objectives of the \$230 million mission is to scout for landing spots for future landing missions, including one in which a spacecraft will bring Martian soil and rocks back to Earth sometime in the next decade.

NASA plans to send a pair of spacecraft to Mars every 26 months through 2005. The second in this series of 10, the Mars Pathfinder, is due to lift off Dec. 2 and land on July 4, 1997.

Neither of NASA's 1976 Viking landers found any conclusive sign of life on Mars, and Huntress expects it will take hard evidence -- like returned samples -- to "put the nail on that."

If evidence of life is found, that eventually could lead to manned flights to Mars, Huntress said.
