

## ESPICOM Country Health Care Reports

### FILE DESCRIPTION

ESPICOM Country Health Care Reports, comprising reports from both *Medistat* and *World Pharmaceutical Markets*, offer in-depth information on a country-by-country basis, focusing on the medical equipment and pharmaceutical markets respectively.

The profiles offer an excellent resource for all those needing to monitor developments in medical markets, identify new opportunities, assess product areas, and draw up market plans in new countries.

Use MDST to answer such questions as:

--what proportion of the Canadian population is aged 65 or over?

--what are the leading causes of death in Chile?

--what is the overall value of the Czech pharmaceutical market, and the per capita spending?

--who are the leading generics manufacturers in Japan?

--who are the main domestic producers of medical equipment in Egypt?

### SUBJECT COVERAGE

Both sets of profiles include key background healthcare statistics including:

- geographic, political, and economic reviews
- population data and health statistics
- health expenditure summary

The 58 World Pharmaceutical Markets profiles also offer:

- detailed analysis of the local pharmaceutical market including regulation, approvals, advertising, and patent issues
- information on pharmaceutical consumption, including prescription products, generics, OTCs, domestic production, and international trade

The 80 Medistat profiles also offer:

- detailed analysis of the local medical equipment market including regulation, approvals, advertising, and patent issues
- a review of market access including procurement routines and the role of agents and wholesalers
