

# American Business Directory

## FILE DESCRIPTION

**American Business Directory** (File 531), produced by *InfoUSA*, contains company address, current address, telephone number, employment data, key contact and title, primary Standard Industrial Classification (SIC) code, yellow pages and brand/trade name information, actual and estimated financial data, and corporate linkages on over 13.2 million U.S. business establishments. A companion file, *Canadian Business Directory*, File 533, covers over 1.4 million Canadian businesses.

Data is compiled through a continuous updating cycle of compilation from print sources (including over 5,000 yellow-page books) and telephone interviews capturing additional data, such as primary line of business, key contacts, and actual employee size. Annual reports are used for public company data.

## SUBJECT COVERAGE

**American Business Directory** covers U.S. company locations and classifies them by SIC industry codes. The 4-digit SIC codes have been enhanced to 6 digits so that searches can be more specifically targeted to any telephone directory classification. Brand names and franchise descriptions are also available on many SIC codes, providing the ability to retrieve professionals by specialty and identify product brands and true franchises. Coverage includes:

- Public companies
- Private companies
- Small businesses
- Government agencies
- Professionals
- Schools

## TIPS

### USE FILE 531

to find directory information on U.S. businesses.

### USE /CO OR CO=

to search for names of companies and businesses.

### USE SC=

to find companies by SIC code.

### USE REPORT

to arrange output in easy-to-read tabular format.

## DIALOG FILE DATA

Inclusive Dates: Current

Update Frequency: Monthly reload

File Size: 13,202,521 records as of June 2009
