

Kompass Asia/Pacific

FILE DESCRIPTION

Kompass Asia/Pacific provides business information for over 423,7000 companies located in twelve countries, with an emphasis on manufacturing, industrial, and associated service sectors. The file uses the Kompass WF.12 detailed classification system consisting of product and service descriptions and corresponding codes. See the Related Search Aids section for more information. Product names are searchable and displayable in the file in English, German, French, Spanish, and Italian. Most records provide standard business information, including names of key executives, directors, and managers along with their positions.

The information in Kompass Asia/Pacific includes data contained in the Kompass directories in the following countries: Australia, China, Hong Kong, India, Japan, Korea (Republic of), Malaysia, New Zealand, Singapore, Sri Lanka, Taiwan (Province of China), and Thailand.

SUBJECT COVERAGE

Information in each record includes:

- Company Name, Address, Telephone and Fax Numbers
- Description of Business
- Number of Employees
- Senior Executives
- Foreign Trade Status
- Products and Activities

Longer records may contain: associations and quality assessments, financial information, export markets, web and email addresses, and markets of interest data.

TIPS

USE FILE 592

to find directory and product information for companies located in twelve Asian countries.

USE /PRODUCTS

to restrict retrieval to records containing product listings.

USE PX=

to link product activity with a product name or code.

USE PRODUCT CODES

for precise retrieval of products.

EXPAND PC= to show the 7-digit product codes.

DIALOG FILE DATA

Inclusive Dates: Current

Update Frequency: Annual reload

File Size: 423,775 records as of Oct 2011

⁴ Number of Employees is searchable as complete numbers, rounded down to the two left-most significant digits. Use EM=999999 to search the highest number of employees in a range search.

⁵ The following entries are searchable with FT=: EXPORTER, IMPORTER.

⁶ Product Codes are cascaded and may also be searched at the 2-, 5-, and 7-digit levels (e.g., S PC=44; S PC=44200; S PC=4420054).

⁷ Only the 2 to 3 digit country code is searchable; the TE display code displays the entire telephone number.

⁸ Numeric entries are indexed as complete numbers, rounded down to the two left-most digits. Use numeric operators (>, <, >=, <=) to search a range of values, e.g., S SL>=1K to retrieve companies with sales of 1 thousand or higher.
