

Investext® PDF Fulltext

FILE DESCRIPTION

INVESTEXT® PDF Fulltext is an index to company, industry, and topical research reports written by analysts at leading investment banks, brokerage houses and consulting firms worldwide. Records containing citations to reports are put online as soon as the reports are received by Investext and are available in PDF format. The citation records are updated a few days later with the full Table of Contents. Records can be searched on classic Dialog in File 745, as well as in DialogSelect, Intranet Toolkit, Dialog1, or DialogWeb.

Complete reports or individual pages can be obtained in PDF format using DialogSelect, Intranet Toolkit, Dialog1, or DialogWeb.

File 745 provides access to many reports available from Investext from August 1999 forward. A companion file, File 545, INVESTEXT®, contains about 40% of the Investext collection from July 1982 through March 2007.

Investext provides reports on companies, industries and topics. The type of report can be distinguished using Expand SF=, i.e., SF=COMPANY, SF=INDUSTRY, or SF=TOPICAL. For publicly traded companies in-depth analysis and data are provided, including sales and earnings forecasts, market share projections and research and development expenditures. Other Investext reports analyze specific industries, topics and products and are particularly useful for market research, strategic planning, competitive analysis, and financial forecasting.
