- Trade and industry

### TIPS

#### Use the Telegraph papers

to search for information on local, national (U.K.), and international news events.

SELECT PRINCE(W)WILLIAM

#### Use JN= to narrow your search

to a single newspaper.

SELECT JN=DAILY TELEGRAPH

#### SELECT PD=

for articles from a particular publication date.

#### EXPAND CO=

to view the various company names.

#### EXPAND PN=

to view the industry names.

### DIALOG FILE DATA

Inclusive Dates: September 19, 2000 to the present

Update Frequency: Daily

File Size: 593,745 records as of July 2008

TEXT:  
ALTHOUGH parts of England and Wales are suffering the most widespread flooding since 1947, householders were asked yesterday to conserve water. The irony may have been lost on those unable to see dry land from their kitchen windows, but at least two companies were asking their customers yesterday to use water "wisely". Up to three million people in parts of the Home Counties and another 20,000 in Kent were urged to take showers rather than baths, not leave taps running unnecessarily and use washing machines and dish washers only with a full load. The problems have been prompted by gales and heavy rainfall, which cut off electricity to several key pumping stations and affected water quality, forcing companies to shut off supplies from some underground sources. In Kent, Folkestone and Dover Water Services asked thousands of customers to save water. The company also had to ask a further 10,000 households in the Dover area not to drink water from their taps because of concern over its quality. Although it has enough water for the immediate future, customers have been asked to conserve water for at least three days as more stormy weather threatens the region. Customers have been told to boil water before drinking it or using it for cooking. Three Valleys Water has also asked its three million customers in parts of Essex, Surrey, Hertfordshire, north-west London, Buckinghamshire and Bedfordshire not to waste water. Almost 30 pumping stations in the region have been affected by power failures or flooding.
